

Business Intelligence Analytics

At the end of 2015, the pizza business lacked a clear, centralized view of its overall performance. Decision-makers needed a way to evaluate key performance indicators (KPIs), identify sales trends over time, and understand customer purchasing patterns. Without an interactive reporting solution, extracting actionable insights from the sales data was time-consuming and limited the business's ability to make informed, data-driven decisions.

My Process

Overview

This is the Second and final Part of a two part Sales analysis.

This part involved using Power Bi to visualize the data provided by a client that runs a Pizza business.

The data information was for the entire year of 2015 and contained 48620 rows worth of data.

Along the way hurdles were encountered in the analysis of this data but with proper research and knowledge they were quickly cleared and the problem statements were effectively tackled

Business Problem Statement(EDA)

KPI REQUIREMENT

1. **TOTAL REVENUE:** The sum of total price of all pizza orders
2. **AVERAGE ORDER VALUE:** The average amount spent per order, calculated by dividing the total revenue by the total number of orders
3. **TOTAL PIZZAS SOLD:** The sum of the quantities of all pizza sold
4. **TOTAL ORDERS:** The total number of orders placed.
5. **AVG PIZZAS PER ORDER:** The avg number of pizzas sold per order, calculated by dividing the total number of pizzas sold by the total number of orders

Business Problem Statement(EDA)

CHARTS REQUIREMENT

6. Daily Trend for Total Orders
7. Monthly Trend for total Orders
8. Percentage of Sales by Pizza Category
9. Percentage of Sales by Pizza size
10. Top 5 Best sellers by Revenue, Total Quantity and total orders
11. Bottom 5 worst sellers by Revenue, Total Quantity and total orders

1. Load and clean the data

OTHER FEATURES

Slicers

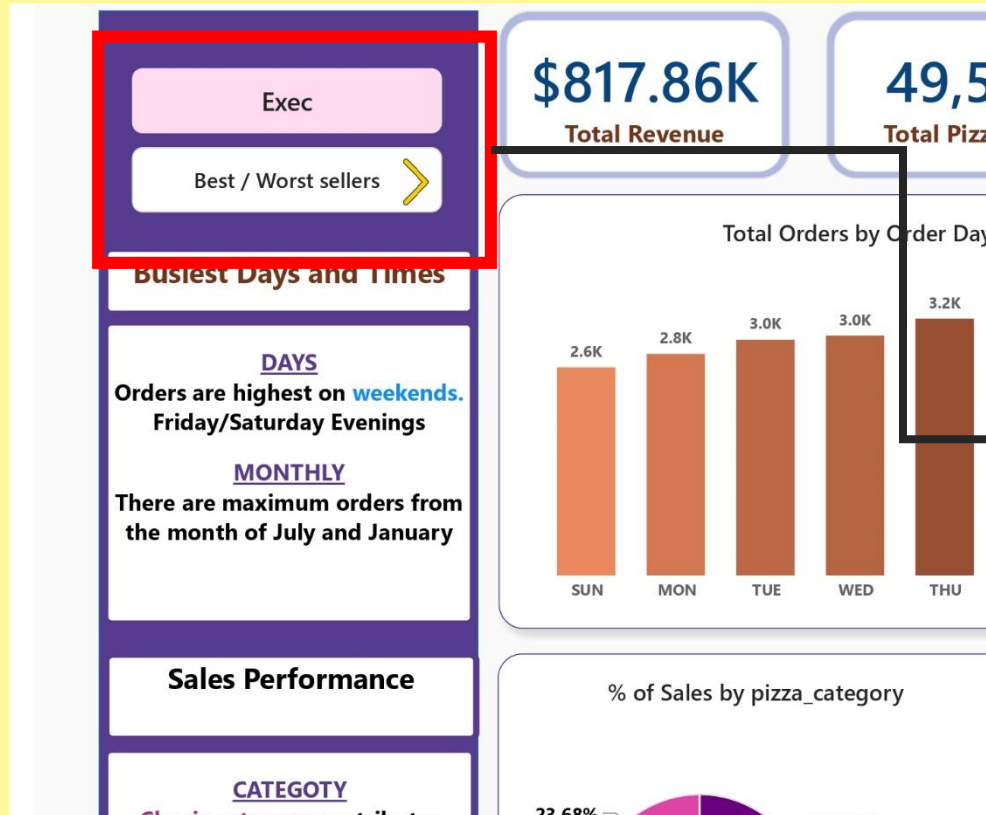

- Slicers that enable stakeholders to filter the dashboard by category and dates

DAX MEASURES

- The creation of measures using DAX is crucial to avoid the creation of redundant calculated columns and make the analysis more efficient

Buttons

- Buttons that enable seamless movement from page to page for efficiency

Thank you for your time.
I would be more than happy to discuss
further and address any concerns you
may have.
