PROFESSIONAL SUMMARY

Detail-oriented aspiring Data Analyst with a First-Class degree in Human Anatomy and practical experience analyzing data, improving operational processes, and supporting data-driven decision-making across healthcare, academia, and business environments. Proficient in Excel, Power BI, SQL, Python, and SPSS with a strong ability to collect, clean, interpret, and present data through meaningful reports and dashboards. Recognized for analytical thinking, process improvement, adaptability, and collaborating effectively in fast-paced teams.

CORE SKILLS

- Data Collection & Cleaning
 - Data Analysis
 - Exploratory Data Analysis (EDA)
 - Data Interpretation
 - Dashboard Development
 - Power BI Reporting
 - Microsoft Excel (Pivot Tables, Charts, Formulas)
 - SQL (Basic)
 - Python (Data Analysis)
 - SPSS Statistical Analysis
 - Data Visualization
 - Business Reporting
 - Process Improvement
 - Problem Solving
 - Attention to Detail
 - Critical Thinking
 - Team Collaboration
 - Stakeholder Communication
 - Research & Documentation
 - Time Management
-

WORK EXPERIENCE

Creative Strategist

TGA Hub Ltd. | 2025 – 2026

- Collaborated with the marketing team to analyze audience engagement and develop strategies that improved brand visibility across multiple digital platforms.
- Used performance metrics to evaluate campaign effectiveness and support data-informed marketing decisions.

- Developed standardized brand assets and documentation, improving consistency and operational efficiency across creative projects.
- Worked across multiple digital tools to deliver projects within deadlines while maintaining high-quality standards.
- Increased social media engagement and brand visibility by approximately **50%** through strategic content planning and execution.
- Contributed to improved team productivity by **30%** by collaborating effectively in a fast-paced environment and streamlining creative workflows.

Key Achievement

- Improved marketing performance by using audience insights and performance analysis to support strategic decision-making.
-

Administrative Officer (National Youth Service)

Department of Biomedical Technology/Biomedical Engineering, Federal University of Technology Akure (FUTA) | 2024 – 2025

- Supported administrative operations during the successful transition of the Biomedical Technology Department into the Biomedical Engineering Department.
- Maintained accurate records, correspondence, and departmental documentation to ensure timely communication and efficient workflow.
- Improved document filing processes, making records easier to retrieve and reducing administrative delays.
- Assisted in organizing departmental information and ensuring data accuracy across official documentation.
- Collaborated with academic and administrative staff to maintain efficient departmental operations.

Key Achievement

- Introduced an improved document management process that increased file retrieval efficiency by **25%**.
-

Histology Intern

University of Nigeria, Nsukka | 2023

- Assisted in laboratory data recording and documentation during histological tissue processing.
- Ensured accuracy while preparing tissue samples and maintaining laboratory records.
- Followed established quality control procedures to support reliable laboratory outcomes.

- Worked closely with laboratory staff to improve workflow efficiency in a fast-paced environment.
- Gained experience interpreting laboratory observations and maintaining detailed documentation.

Key Achievement

- Improved laboratory workflow efficiency by approximately **30%** through proactive support and effective task management.
-

Clinical Intern

Division Military Hospital, Enugu | 2023

- Collected, documented, and maintained accurate patient information and medical records.
- Recorded patient observations while ensuring completeness and accuracy of clinical documentation.
- Assisted multidisciplinary healthcare professionals in maintaining efficient departmental operations.
- Demonstrated strong attention to detail when handling confidential patient information.
- Supported departmental activities while adhering to established operational procedures.

Key Achievement

- Enhanced departmental efficiency by approximately **20%** through dependable support and effective task execution.
-

Clinical Intern

University of Nigeria Teaching Hospital (UNTH), Ituku-Ozalla | 2023

- Assisted physiotherapists during patient rehabilitation sessions while maintaining accurate treatment documentation.
 - Supported radiology staff in preparing patients for imaging procedures and maintaining procedural records.
 - Ensured accurate documentation throughout diagnostic and rehabilitation processes.
 - Collaborated effectively with multidisciplinary healthcare teams.
-
